INDEX TO VOLUME 59, 2008

AUTHOR AND TITLE INDEX

(Excluding *Book Selection* and *Viewpoints*)
* = Case-Oriented Paper

Aboolian, R., Berman, O. and Krass, D.:
Optimizing pricing and location decisions for competitive service facilities charging uniform price, 1506

Ackermann, F.:
(*see* Montibeller, G.)

Adams, N. M.:
(*see* Hand, D. J.)

*Aghezzaf, E.-H.:
Robust distribution planning for supplier-managed inventory agreements when demand rates and travel times are stationary, 1055

Ahmed, A. H. and Poojari, C. A.:
An overview of the issues in the airline industry and the role of optimization models and algorithms, 267

*Ahn, B. S. and Choi, S. H.:
ERP system selection using a simulation-based AHP approach: a case of Korean homeshopping company, 322

Ahuja, R. K.:
(*see* Liu, J.)

Aköz, O.:
(*see* Petrovic, D.)

Alabas-Uslu, C.:
A self-tuning heuristic for a multi-objective vehicle routing problem, 988

Alardhi, M. and Labib, A. W.:
Preventive maintenance scheduling of multi-cogeneration plants using integer programming, 503

Almeida, M. T.:
(*see* Carvalho, F. D.)

Alonso, F., Alvarez, M. J. and Beasley, J. E.:
A tabu search algorithm for the periodic vehicle routing problem with multiple vehicle trips and accessibility restrictions, 963

Altinel, I. K.:
(*see* Aras, N.)

Altiparmak, F. and Karaoglan, I.:
An adaptive tabu-simulated annealing for concave cost transportation problems, 331

Alvarez, M. J.:
(*see* Alonso, F.)

Alves, C., Valério de Carvalho, J. M.:
New integer programming formulations and an exact algorithm for the ordered cutting stock problem, 1520

*Al-Yakoob, S. M. and Sherali, H. D.:
A column generation approach for an employee scheduling problem with multiple shifts and work locations, 34

*Anastasakis, L., Olphert, C. W. and Wilson, J. M.:
Experiences in using a contingency factor-based validation methodology for spreadsheet DSS, 756

André, F. J., Cardenete, M. A. and Romero, C.:
Using compromise programming for macroeconomic policy making in a general equilibrium framework: theory and application to the Spanish economy, 875

*Angelou, G. and Economides, A.:
A real options approach for prioritizing ICT business alternatives: a case study from broadband technology business field, 1340

Antony, J., Kumar, M. and Labib, A.:
Gearing Six Sigma into UK manufacturing SMEs: results from a pilot study, 482

*Antunes, A. P., Teixeira, J. C. and Coutinho, M. S.:
Managing solid waste through discrete location analysis: A case study in central Portugal, 1038

Antunes, C. H.:
(*see* Gouveia, M. C.)

Aras, N., Orbay, M. and Altinel, I. K.:
Efficient heuristics for the rectilinear distance capacitated multi-facility Weber problem, 64

Arora, S.:
(*see* Bustamante-Cedeño, E.)

Bachan, R., Reilly, B. and Witt, R.:
The hazard of being an English football league manager: empirical estimates for three recent league seasons, 884

Bai, R., Burke, E. K. and Kendall, G.:
Heuristic, meta-heuristic and hyper-heuristic approaches for fresh produce inventory control and shelf space allocation, 1387

Bao, C.-P., Chen, T.-H. and Chang, S.-Y.:
Slack-based ranking method: an interpretation to the cross-efficiency method in DEA, 860

Battarra, M., Golden, B. and Vigo, D.:
Tuning a parametric Clarke-Wright heuristic via a genetic algorithm, 1568

Beasley, J. E.:
(*see* Alonso, F.)

Bektaş, T., Cordeau, J.-F., Erkut, E. and Laporte, G.:
A two-level simulated annealing algorithm for efficient dissemination of electronic content, 1557

*Bell, P. C.:
Short selling and replaning as tools to enhance revenues, 313

Belov, G., Scheithauer, G. and Mukhacheva, E. A.:
One-dimensional heuristics adapted for two-dimensional rectangular strip packing, 823

Belton, V.:
(*see* Montibeller, G.)

Belton, V.:
(*see* Santos, S. P.)

Ben-Daya, M.:
(*see* El-Ferik, S.)

Benzion, U., Cohen, Y., Peled, R. and Shavit, T.:
Decision-making and the newsvendor problem: an experimental study, 1281

SUBJECT INDEX

(This index includes all *papers*)

1-maximin 563

Accessibility restrictions 963
Accidents 305
Accuracy 956
Adaptive cooling strategy 331
Age-based preventive maintenance policy 1644
Agent-based model 703
Agent-based modeling 25
Aging effect 416
Agriculture 305
Air transport 1026, 1100
Allocation 372
Analytic hierarchy process 322
Ant colony optimization 1077, 1269
Applications 171
Approximation 1506
Arc routing 540
Artificial intelligence 455
Assessment 956
Assignment 607

Backhauling 1532
Banking 198
Batch-processing machine 1269
Bayesian network 426
Behaviour 1281
Benders' decomposition 2
Branch-and-bound 1520
Broadband 1299
Broadband investments 1340
Bullwhip effect 494

Call centres 171
Capacitated customers 1449
Capacitated prize-collecting travelling salesman problem 590
Capacity constraint 105
Capacity planning 1506
Cardinal utility 407
Case study 473
Car-sequencing 1077
Categorization 473
Causal diagrams 1299
Cell suppression problem 556
Cervical screening 902
Civil servants 259
Classification 956
Coalition 1483
Coarse classifying 714
Cogeneration plant 503
Cognitive mapping 575
Colour-coating production scheduling 590
Column generation 34, 607, 1239, 1520
Combinatorial analysis 388
Combinatorial problems 932
Common carrier 776
Common-use check-in counter 1100
Communities of Practice 13
Competency 259
Competition 1026
Competitive environment 362
Competitive location models 1506
Composite indicator construction 239
Compromise programming 875
Computable general equilibrium model 875
Computational analysis 182, 1373, 1674
Computational complexity 977
Computational geometry 1674
Concave cost 331
Conceptual modelling 278, 291
Constraint satisfaction 431
Contaminated area 977
Content distribution network 1557
Control chart 1128
Convex analysis 1674
Coordinated replenishments 1415
Coordination 685
Coronary heart disease 1173
Cost benefit 600, 946
Credit and risk scoring (CR) 464
Credit scoring 714, 921
Cricket 729
